Mrs. F. M. Smith went to Louisville Saturday to meet her daughter, Miss LaHe LaHeist, who returned from school.

Miss LaHe LaHeist, Miss Maggie Bowmer and Miss Lizzie Skillman have returned from school to spend the holidays.

Clarence Duncan and Florence Lillard, both colored, were fined \$15 and costs before Mayor Pierce Monday for disturbing the peace.

Lewis L. Waggoner has been to Mowqua, Illinois, prospecting. He is very much pleased with the country and thinks he will move out there. We should hate to give up so good a citizen as Mr. Waggoner.

Mr. Miller, wife and six children, arrived in this city yesterday from England. Mr. Miller is the general manager of the Breckenridge Company, Limited, and comes to take charge of the company's business here.

Misses Lena and Maggie McGary, of Hardinsburg, came down to spend Christmas with their cousins, Misses Florence and Tula Lewis.

The city council and Judge DeHaven have compromised their street troubles, the council agreeing to pay him \$200 for the right of way.

Mr. Samuel Robertson, of Lodi, was in the city Saturday. He spent Sunday with his uncle, Mr. Geo. W. Robertson, at Patesville.

Mrs. Emma Haars and her two children left on the train Friday to spend the winter with her brothers, Clel and Al Shacklett at San Antonio, Texas.

Hon. G. D. Chambers, Hancock's representative in the Constitutional Convention, got on one of his periodical sprees in Louisville last week and was locked up.

Mr. Robert Lindlay is furnishing a very handsome room at Mr. Geo. Weatherholt's. It is said that he will leave for St. Louis in a few days and bring back his bride.

Miss Mollie Patterson was married to Mr. David Wright, of Daviess county, last Thursday evening at 3 o'clock p. m., Rev. W. C. Overstreet performing the ceremony.

Mr. A. H. Evans, formerly with the Short Line Railroad, succeeds Mr. Sam Stites as conductor on passenger train No. 52, Mr. Stites having been recently promoted to the position of chief train dispatcher, vice E. B. Zigler, resigned.

The first passenger train was run over the Falls of Rough branch of the L. H. & W. railroad to the Falls of Rough Monday. Passengers can now leave Louisville at 8:05 a. m. and arrive at the Falls of Rough at 1:24 p. m., have a few hours there and return the same evening. Mr. J. J. Tilford is the conductor.

Babbage is not making much fuss about his holiday goods, but he's got 'em all the same, and they are going off like hot cakes. The prices—well everybody says they are the lowest in town. The grand slaughter will commence in earnest to-day. Everything goes—name your price and take it.

J. F. Sulzer & Bro. have a very handsome display of Christmas goods. Mr. J. B. Fisher is their artist, and his arrangement of their show windows and general display would do credit to any of the large houses on Fourth avenue, Louisville. The Sulzers are mighty live people.

Miss Sallie Pumphrey, of Holt, and Mr. Orfila DeHaven, of this city, were married at the residence of the bride's uncle, Capt. A. J. Gross, Monday at 9 o'clock a. m. The wedding was a very quiet one, there being only a few friends present. After the ceremony the happy pair took the 10 o'clock train for Louisville.

The American Gas Company sold their well to the Mineral Center Gas Company last week for \$2,000. Mayor Pierce consummated the trade and it is said got a big block of stock for his trouble. This well will be turned into the pipe line and the consumers in that part of the city will have plenty of gas.

One would be surprised to take a walk through the West-end of this city to see the number of new buildings that have gone up there within the last three months. Some fifteen or twenty good substantial dwellings have been put up besides a number that have been repaired. Everything looks prosperous and healthy in the West end.

J. F. Sulzer & Bro., have bought the Patterson stock of goods from R. N. Miller, assignee. The goods will not be removed but sold from the storehouse where they now are. The indebtedness sums up about \$950 and the assets amount to enough to pay the creditors 50 per cent. on the dollar. R. N. Miller, the assignee, says the business is being wound up as rapidly as possible, and he hopes to be able to make a settlement with the creditors in a very short time.

George Dean and Ether Hall got into a difficulty at the depot Sunday night and used a club and a knife pretty freely on each other. George Dean is the night clerk at the depot and Ether Hall came in there making considerable noise, when Dean asked him to be quiet. Hall still persisted in his racket and Dean ordered him out of the house with a threat, that if he didn't go he would put him out. Hall replied that he wasn't man enough to put him out. Dean then made at him with a club and Hall jerked out his knife cutting Dean in several places but not seriously. They were tried before Mayor Pierce Monday and fined \$10 and costs each.

The Constitutional Convention is dragging along, killing a great deal of time and not doing much valuable service. The people of Kentucky thought that when the body got together they would be men of wisdom and prudence, and go immediately to work and make such changes in the Constitution as was necessary, and do it speedily. But they have been surprised, and haven't a very exalted opinion of the proceedings so far.

Dentistry.

Dr. W. S. Taylor, of Owensboro, Ky., will be in Hardinsburg on the 29th of December, and can be found at the Lennin House. The doctor will remain one week.

Natural Gas and Salt Water Development at Cloverport.

The salt well on Major Miller's land reached the "lower vein" of salt water at 2 o'clock p. m., on last Saturday. The quality of the water is what was expected and desired, and the quantity more than satisfactory. In a few hours there were four hundred feet of salt water in the well. Dr. J. P. Barnum came down from Louisville and was delighted with the appearance of things. The well is now 461 feet deep.

This well was sunk for the Crescent Soda and Salt Company, Bennett H. Young, president. The company now has on its property a gas well and a salt well, both sufficient and highly satisfactory, and it may now be said that the development of their property has reached all that the company has sought for the last six months. A combination of limestone, natural gas and salt water in large quantities on the same spot is indeed rare, with a railroad penetrating, and a large river flowing beside the property with a deep water harbor in its front.

But such is the case and general congratulations are indulged in. The Barnum patent for the production of soda ash and its by-products is fully completed at Washington. Every impediment seems to be removed, and the construction of the works will be no longer delayed.

The gas field at Cloverport is manifested to be all that can be reasonably desired. But two wells are being employed to supply the domestic wants of the city. The others are as yet idle, and each of the pipe line companies have a well ready to be turned into the mains in case very cold weather shall make it necessary to do so.

The field is shown to be a fruitful one, and whenever and wherever around or in the city, gas shall be needed the drill will furnish it. Any number of manufacturing concerns can have this fuel within a few feet of the furnace, by penetrating the earth to a depth of 900 feet. The river and the rail alongside afford rapid and cheap transportation. These are the results learned and established within the last eighteen months.

Our people have not been idle. They have realized that patience and perseverance would accomplish the desired end of revealing what we have. They knew it was necessary to do so, and have faltered neither in faith nor effort. Croakers there were to revile—rival towns and people were abundant to bitterly sneer and misrepresent. But they moved onward, till now they stand on facts as immutable as truth.

Cloverport's future as a large town is assured. She invites immigration and industry into her midst. Her people have expended thousands to exhibit and develop her vast possibilities, and they are offered to the capitalist and the artisan to materialize.

Dr. Barnum arrived here Monday night and says his company is satisfied with the recent developments, and they will go to work erecting their plant here immediately after the first of January.

Why It Is Popular.

Because it has proven its absolute merit over and over again, because it has an unequalled record of cures, because its business is conducted in a thoroughly honest manner, and because it combines economy and strength, being the only medicine of which "100 Doses One Dollar" is true—these strong points have made Hood's Sarsaparilla the most successful medicine of the day.

Holiday Excursion Rates.

The L., St. L. & T. railroad will on December 24, 25 and 31st and January 1st, sell holiday excursion tickets between all stations on its line at one and one-third fare for the round trip. Return limited to January 5th.

Fire and Paving Brick Material.
At the eastern edge of the city is a peculiar sight, and the passerby inquires its meaning. At the edge of the railroad track is a well ten feet in diameter and twenty-three feet deep. From it has been taken and tested, a peculiar clay or slate. Its color is singular and variegated. Its quantity is apparently limitless.

The product of this hole makes a brick as hard as flint and glazed on its surface, which withstands the action of fire beyond all others, and makes a pavement impervious to water and frost and wear. It also makes the best tiling, and is regarded as a most valuable discovery.

A large manufacturing concern in one of our cities has been quietly prosecuting the investigation and tests of this remarkable product of nature, and rumor says is far advanced toward establishing extensive works to utilize it.
